

CatsnCare is able to arrange for your cats / kittens to be Desexed + Microchipped at either Silverdale Vet (next to Animates in Silverdale), **OR** the Hibiscus Coast Vet Hospital at 70B Grand Drive, Orewa for \$40 for each cat/ kitten.

If you are keen to go ahead, could you please advise the following info about him/her:

- **Breed (if applicable, usually Domestic short hair, Domestic long hair etc)**
- **Colour**
- **Age**
- **Sex**
- **Name**
- **Has he/she ever suffered from heart disease or seizures?**
- **Has he/she ever had a drug reaction?**
- **Is he/she currently on any medication?**

And advise / confirm the following about you:

- **Your surname, landline, mobile and your address - this is needed to register the microchip to you; and**
- **Which Vet location you prefer.**

Once you reply to this email with the details needed, we will be in touch again to offer you a date for the operation. Please note we try to give priority to the older cats (especially females who could have unwanted litters). The ideal age for DeSexing is around 4mths old, therefore if you have a kitten < 3mths old your appointment may not be for a few weeks.

Once the date is confirmed, you will need to ensure he/she **DOES NOT EAT after 8pm the night before**, and drop him/her at the **Vet by 8.30am on the morning of the op.**

The \$40 per cat is paid direct to the Vet on the day of the operation.

Silverdale Vet / Orewa Vet are also able to offer discounted vaccination and flea + worm treatments as follows:

Kitten vaccinations due at 8 and 12 wks	\$41.40
Annual vaccination	\$45.50
Flea + Worm combined in Broadline	\$12.60 2.5kg + under
	\$13.70 over 2.5kg

If you would like any of these additional treatments please tell the Nurses when you check your cat in.
